

R-G1 FARM TO FARM MOVEMENT - LETTER OF GUARANTEE

Name of farm/building identification: PID#:

Site manager: Person in charge: Date:
 (yy/mm/dd)

INSTRUCTIONS

If the shipping and receiving sites have the same site manager or are linked under the PigTRACE program, the site manager(s) could decide to sign a letter of guarantee for farm to farm movement that must be accompanied by an SOP explaining the treatment schedule for the incoming animals instead of filling out a Swine Movement Document (R-G) for each load of pigs shipped.

If one of the site managers changes, a new letter of guarantee - farm to farm movement is required. The treatment schedule must list all outstanding withdrawal period.
